SUMMARY

Motivated software engineer with a passion for web development and a strong foundation in HTML, CSS, and JavaScript. Proficient in building interactive and responsive websites using modern libraries and frameworks, including Node.js, React.js, and Express.js. With a keen eye for design and user experience, I am dedicated to creating seamless and engaging digital solutions. My experience extends to collaborating in dynamic environments and utilizing Git for version control. Eager to contribute my skills and enthusiasm to tackle complex challenges and deliver exceptional user experiences.

EDUCATION

AL-HUSSEIN BIN TALAL UNIVERSITY
BSE in Software Engineering
Now | Maan, Jordan

DAIR ABI SAEED HIGH SCHOOL
May 2020 | Irbid, Jordan
GPA: 3.4 / 4.0 (85%)

SKILLS

PROGRAMMING
• Html • CSS • JavaScript • HTML5

• Node.JS • ReactJS • JQuery • Express.js

• MongoDB • LaTeX

TECHNICAL SKILLS
• UI • UX • Debugging • Responsive Design

• APIs • Git • GitHub

LANGUAGES
• Arabic - Native

• English - Intermediate

PROJECTS

BLOG WEBSITE
GitHub: blog-website

- Developed a blog website using Node.js, MongoDB, EJS, and CSS.

- Implemented features for creating, editing, and deleting blog posts.

- Utilized EJS templates for dynamic content rendering.

TO-DO LIST APP
GitHub: todo-list

- Designed a to-do list application with Node.js, MongoDB, EJS, and CSS.

- Enabled users to add, update, and mark tasks as completed.

- Incorporated MongoDB for storing task data persistently.

MOVIE WEBSITE (REACT)
GitHub: movie-website

- Built a movie website using React.js to showcase fetched movie data from an API.

- Allowed users to search for movies and view details including ratings and descriptions.

- Gained practical experience with React components and API integration.
